Kee Klamp – Bowmer & Kirkland

- ❑ In order for Kee Safety to Supply and Install the guard rail we completed and site visit with Bowmer & Kirkland to go through the design's making sure it fit's within there scope of works.
- ❑ The entrance to the car park spirals up 3 levels and the guard rail sits on top of the retaining wall making sure a 1100m design height is achieved for the safety of the general public.
- ❑ Works were completed over a 2 month period fitting into the requirements of B and K to achieve the overall project completion date.
- ❑ Value to Kee Safety £ 23,000.00
